

June 29/12

These are the points I drew from Thursday with Demick Kane. As Nicole sat in on the session, I'm thinking there may be some discussion on his impact for your "kids".

Work to succeed
refer to people with the expertise
look after your business
Reward yourself for efforts

If it's not working, move

Speak with confidence

New experiences. Try it, own it

The harder you work the luckier you are

Marketing & presentation

Adversity = opportunity, recognize it.

Research & advocate

Give back. Means and opportunity

Take the time to feed your soul.

These have universal application for personal success. Truly an amazing man. Thank you for bringing him to us.
